

TECHNICAL DATA SHEET

Description

DARCO **DFST-T** fiberglass sewing thread is made of high twist compound multi-ply fiberglass roving yarn treated with PTFE after high twist compound. It features high tensile strength, good sewing property and high temperature resistance. It widely used in sewing high temperature weave.

Application

- Used for sealing and insulating products
- Sewing safety clothing, gloves, welding and fire blankets

Specification

Item	Filament dia. (μ)	Direction of twist	Turn per meter (min.)	Coating material	Tensile strength (N, min.)	Thread diam. (+/-0.05mm)	Meter per Kilo	Max temp (°C)	Weight per roll (+/- 0.1kgs)	Color
14 tex by 12ply	5.5	Z	280	PTFE	95	0.38	5950	500	1	golden or off-white
14tex by 16ply	5.5	Z	280	PTFE	105	0.46	4450	500	1
